THE INFLUENCE OF THE CULTURE OF THE PARENTS ON THE CHILD'S LANGUAGE

By GENEVIEVE LAROCHE and JEANNE DUMONT, Paris, France

(Received 10 January 1967; accepted 10 April 1968)

SUMMARY. This study concerns the influence of the culture of the parents on the language of their children. It is based on a sample of 100 families, 50 French-speaking and 50 English-speaking, from which 50 children were randomly selected. The results show that the language of the parents has a significant influence on the language of their children.

KEY WORDS: Language, parents, culture, child, speech, communication, education, family.

INTRODUCTION—The present study concerns the influence of the culture of the parents on the language of their children. It is based on a sample of 100 families, 50 French-speaking and 50 English-speaking, from which 50 children were randomly selected.

The results show that the language of the parents has a significant influence on the language of their children. This finding is in agreement with previous studies (e.g., Chomsky, 1965; Chomsky & Hymes, 1972).

However, the results also show that the influence of the parents' language on the child's language is not always positive. In some cases, it can be negative, even harmful.

This study was conducted in order to better understand the relationship between the parents' culture and the child's language. It also aims to provide information on the best way to raise children in a bilingual environment.

The results of this study will be presented in the following sections. The first section will describe the sample and the methods used. The second section will present the results of the study. The third section will discuss the implications of the results for parents and educators.

METHODS—The sample consisted of 100 families, 50 French-speaking and 50 English-speaking, from which 50 children were randomly selected.

The parents' culture was assessed by means of a questionnaire. The questionnaire included questions about the parents' education, occupation, income, and social status.

The children's language was assessed by means of a language test. The test included words and sentences in both French and English.

The results of the study showed that the parents' culture had a significant influence on the children's language.

The results also showed that the influence of the parents' culture on the children's language was not always positive. In some cases, it can be negative, even harmful.

The results of this study will be presented in the following sections. The first section will describe the sample and the methods used. The second section will present the results of the study. The third section will discuss the implications of the results for parents and educators.

RESULTS—The results of the study showed that the parents' culture had a significant influence on the children's language.

Dedication

The 1980 INGOT is dedicated to the senior class and Mrs. Dorothy Zakutansky.

Mrs. Zakutansky began working in the River Forest cafeteria in 1972. She worked part-time as courier and ticket taker until two years ago when she took the job of cafeteria coordinator.

Mrs. Zakutansky began working to support her daughter, Anita, and sons, John and Jerry, after her husband's death twelve years ago.

She was a good mother to her children and a good friend to the students. She was always friendly and pleasant. She took part in school activities and had an abundance of school spirit. She is sincerely missed by the students and faculty of River Forest.

The lights dim. The orchestra is warming up. As the curtain rises, you expect to see a well known actor in a famous Broadway play. But, throughout the pages, the scene becomes more familiar. There are no curtains to rise, actors to perform, or play to be seen. The curtains and scenery become lockers and desks. The performers aren't really actors, but are friends and faculty members.

As this book goes on, the more vivid and familiar the memories; that special dance, the game we almost won, the seniors anxiously awaiting graduation, the underclassmen counting the days until summer.

River

Forest

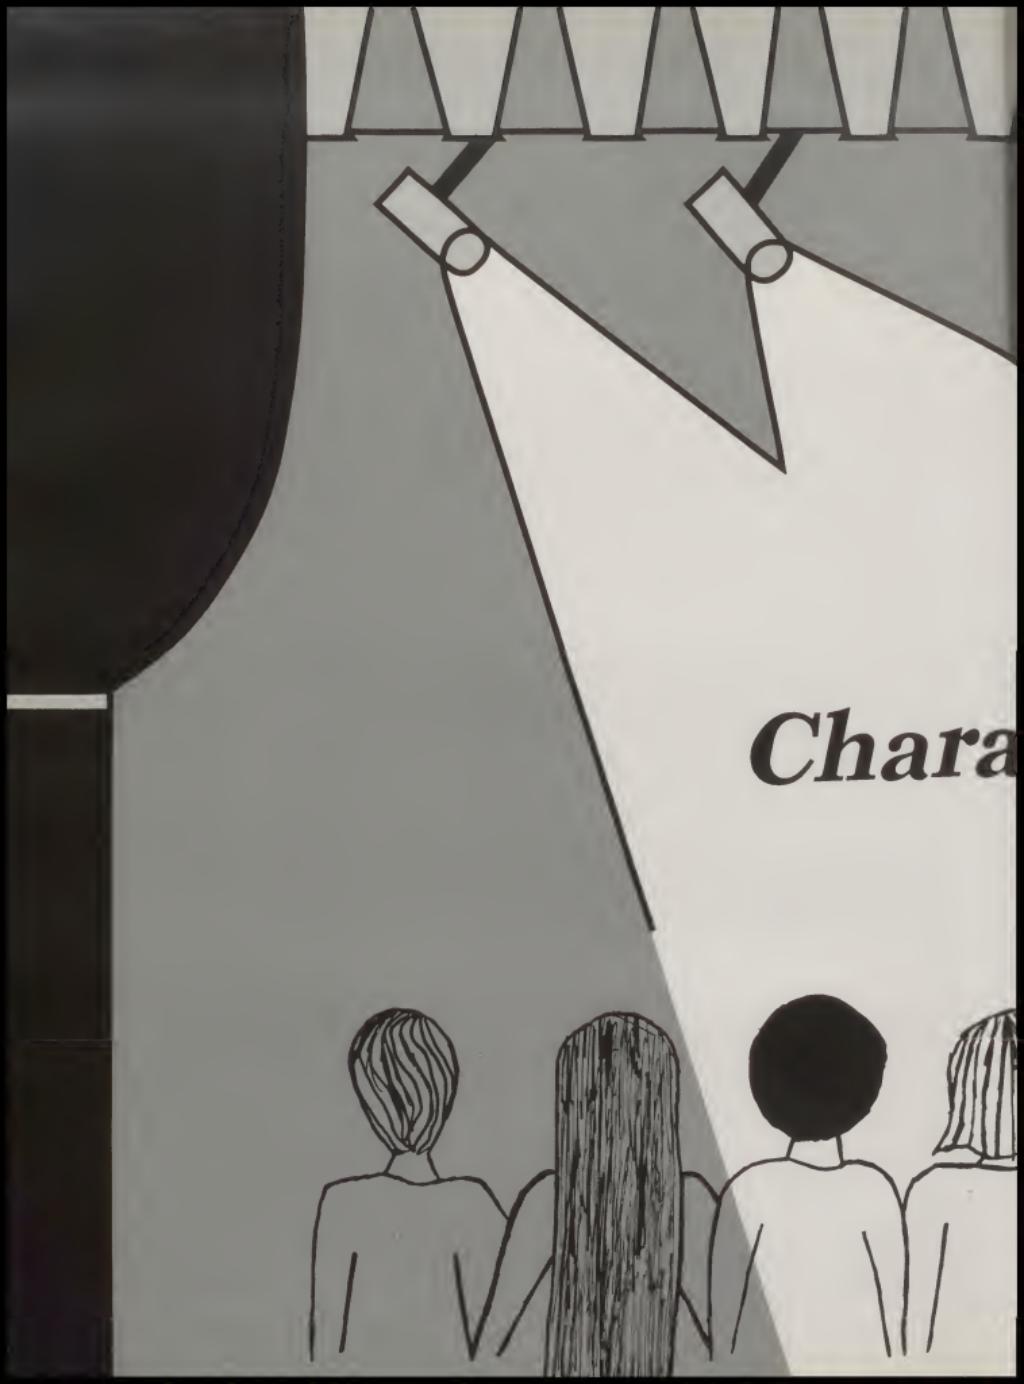

These are all memories, even if not recorded in print or picture.

The purpose of theatrical plays is to move people emotionally. They help you see things in a different light, whether serious in view or amusing. Yearbooks are similar to plays. Yearbooks depict the happy times and the sad times. They show you who you shared those times with, and who made them possible.

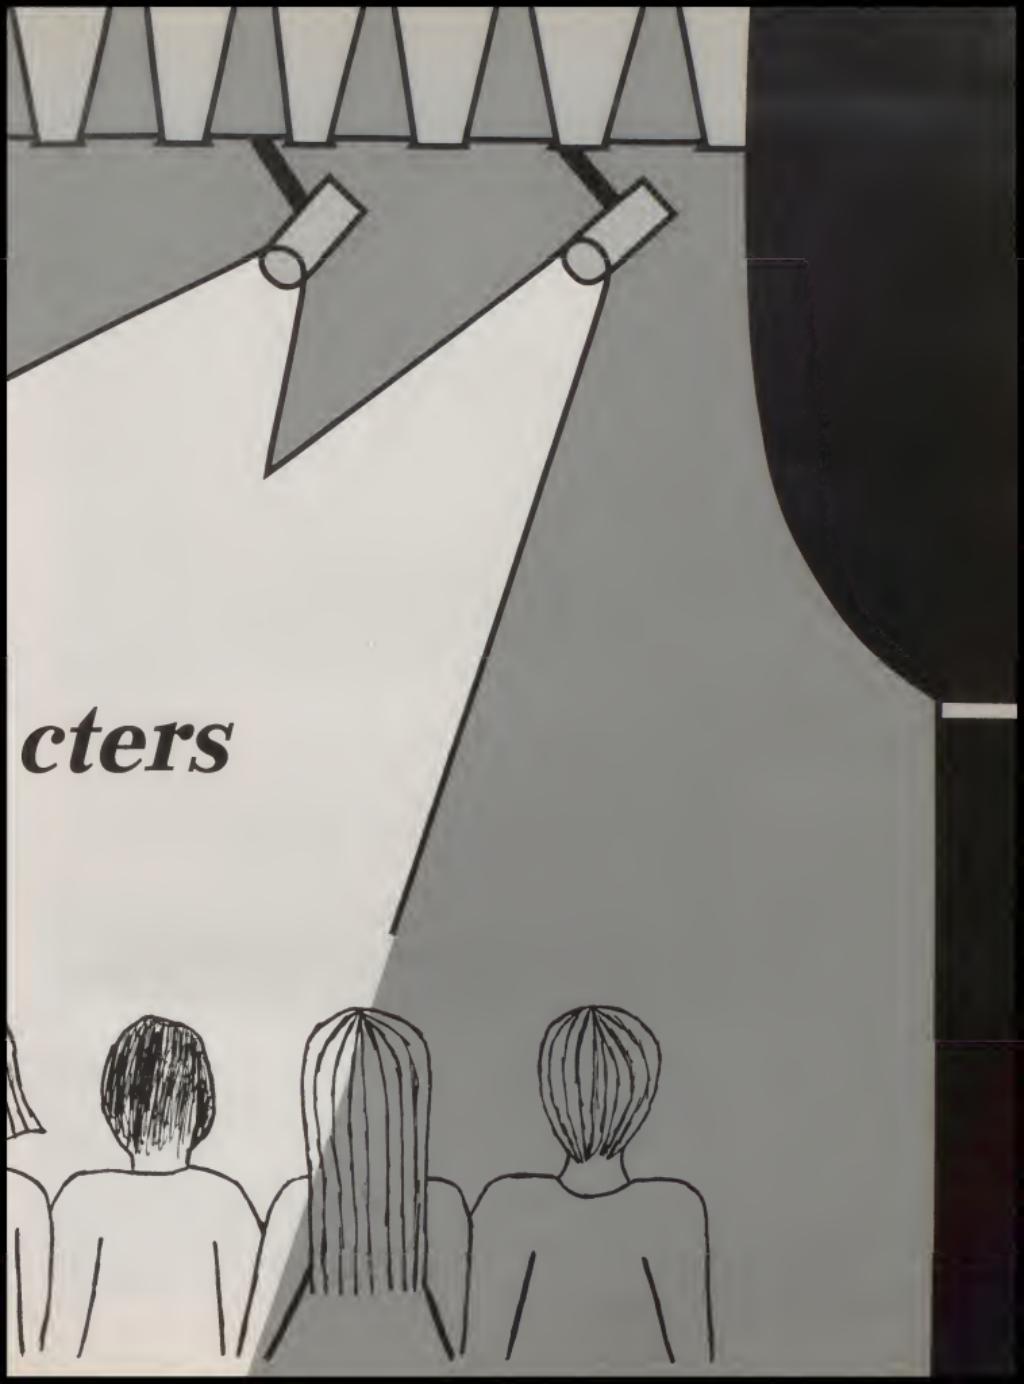

The theatre is constantly changing to the times, and so are the people at River Forest. Television tries to depict the changing times with shows and the theatre with plays. This yearbook tries to keep the times from changing too quickly.

The play concerned the vacation of Professor Rockby, his family, and friends Marcel and Knucklehead. They are staying at an abandoned prison, which, for some strange reason, Marcel seems to know quite well. A ghost, who just happens to be living in the prison, kidnaps Marcel. This prompts a frantic and hilarious chase through a haunted house in search of Marcel.

Left: The Ghost (Jim Davis) tries to kill Mrs. Albright (Dawn Gobin). Below: The Ghost kidnaps Marcel (Tammy Mitchell) to the horror of all concerned.

The play was centered around Judge Roy Bean's decision that Orin Powers must hang for shooting up a poster of his beloved Lily Langtry, the famed frontier actress.

Only the appearance of Lily herself will save Orin from the gallows. The Judge's adopted son journeys to San Antonio to find Lily, but she had already departed for El Paso.

Her understudy is to return to town and impersonate her. What happens when Lily and her impersonator meet the Judge constitutes the fun and drama that make up the legend "West of the Pecos."

D. Thormann MVP

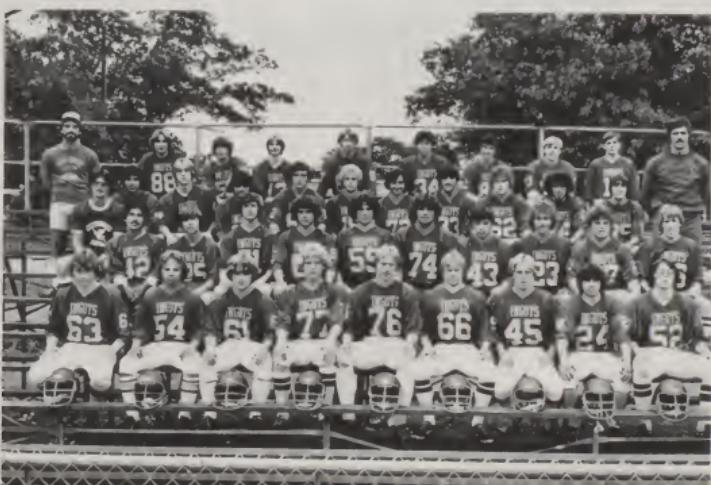

Senior Bob Trezak and Junior Bill Knarian receive assistance from Coach Leonard.

This season was a rough one for the Ingots as injuries took their toll. Bart Bartolini, quarterback, missed 5 games after being injured in the homecoming game. He passed for 422 yds.

in the 4 previous games. Dewey Mayfield missed 4 games due to a back injury and Rocky Lewis was injured during the Lake Station game. Darris Harrell, junior,

was leading rusher with 630 yds. and 5 TD's. Junior Earl Hankins was the leading tackle.

The JV and Freshmen teams both had first year coaches this season. Coach Whiting and the JV players had a winning season but the Freshmen and Coach Jones didn't fare as well. The Kan-

kakee game was a rough loss for the JV team. KV scored with only 15 seconds to play to win the game. Sophomore Gary Mathews led the JV team in scoring. Leading scorer for the

Freshmen was Richard Stover. The Freshmen ended their season with a 1-3 record. (Top Right) John Hankins and Joe Laas have their hands full with this line of KV Cougars.

The 8th grade football team, coached by Mr. Lebo and Mr. Muir, began the season with a bad turnout. The team roster came to a total of 13 names. Throughout the season, very few players came to every

practice. "We had no bench to back us up", stated Coach Muir. RF was outnumbered in each of their 4 games. With only 13 players, there were no substitutes. Every boy had to play throughout every

game, "they just tired out." The 7th grade team had the same problem. The 16 boys proved that they could hold their own, though, when they lost by only 1 TD to a 60 member Crown Point team.

Volleyball And Tennis

For the first time in the history of River Forest, the volleyball team went to the sectionals. Placing second, they beat Emerson and Lew Wallace, but lost to Lake Station. The team finished with a record of

five wins and eleven losses.

The tennis team, despite a losing season, had its seven top players go to the sectionals. Unfortunately, Karen Kipta, being female,

could not participate according to IHSAA rules. The season was also ill-fated for four-year letterman Charles Ball, who ended with a 5-11 record.

Cross Country

The Cross Country team consisted of: Coach Burleson, Rusty Brown, Junior Nieves, Larry Rios, Robert Delgado, Cecil Bennett, Steve Ast, Tod Rheinholtz, Carlos Garza, Gary Kuechenberg, and Jerry Graham.

Tod Rheinholtz

Carlos Garza

Carlos Garza proved he was one of River Forest's best runners when he broke his own record for the two and one half mile run five times. His best and final time was 12:51. Tod Rheinholtz, on the other hand, was not to be out-

done. He broke Garza's record with a sensational time of 12:36. Many firsts were achieved in the 1979-80 Cross Country season. One first occurred when the team had two runners in the top ten in sectionals. The team placing sec-

ond in sectionals was another. The third achievement took place when they went to regionals for the first time. The Ingots placed twelve and six in dual meets, second in sectionals.

Gymnastics

The gymnastic team included: Coach Audrey Cooper, Pam Cook, Stacy Mayes, Sue Kipta, Joyce Zoladz, Ann Micle, spotter Mike Bruns, Michelene White, Sandy Scroggins, Monica Broda, Jennifer Zoladz, Iris Ontano, Kim Mayes, Karen Ivers, Kim Elliott, Tracie Manning, Allison Trusty, and LaFawn White. Upper left, Monica Broda hurdles over the high horse. Upper right, Stacy Mayes balances herself on the uneven bars.

Dewey Dominates The Court

For the third year in a row the River Forest Varsity Basketball team had a 70% freethrow shooting average. Dewey Mayfield was outstanding. He averaged 22 points per game. Two major victories for the team were against Hobart and Hebron. Ho-

bart was defeated in overtime by a score of 47-45 and Hebron, an away game, was soundly defeated by a 65-54 score. The injuries of Jeff Moore, David Kirkbride, and Dave Thormann affected the team's performance. Bart Bartolini, who was

one of last year's starting five, suffered a major injury which rendered him unable to play. Two of the team's weaknesses were rebounding and turnovers. Their season ended with a 6-15 record.

The J.V. basketball team included: Coach Burleson, John Kendera, Garry Uhles, Ron Montano, Robby Smith, Eddie Sult, Joe Laas, Joel Garza, Jim Summar, Richard Stover, Robert Soderquist, Bob Perry, and Troy Verduzco.

The River Forest J.V. basketball team had a season of seven wins and thirteen losses. The J.V. displayed much improvement and worked as a team. Garry Uhles, Richard Stover, and Troy Verduzco were outstanding.

The freshman "A" team had two wins and four losses. Tom Ordway led in scoring. He averaged ten points per game, Chuck Hall, the second leading scorer, with an average of 8 points per game, led in rebounding.

He averaged 8 rebounds per game. On team "B", Jerome Rukavina was the leading rebounder and scorer, with 81 points and 49 rebounds. He was a definite asset to the team's two victories.

Carol Uhles

Renee Smith

Carol Uhles led the team in scoring and broke her own school record with 39 points in one game. Debbie Soderquist and Tina Huf-fine led the team in re-bounds averaging 6.2 and 7 respectively per game. The team played in the Hobart Holiday

Tourney for the first time with a 5-7 record going in. Coach Kay Polk said that the Varsity wasn't as consistant as she would have liked. However, the J.V. looked very promising. They ended with a 9-4 winning record. Above: Tina Burge and Glenda

7th-8th Grade Basketball

The seventh grade basketball team ended with a season record of 4-9. Versatile John Hoskins was outstanding as forward, center and guard. Turnovers were probably the reason for most of the losses, according to Coach Klarer. The guards were exceptionally

short and full court presses hurt the team. A majority of games were lost by just a few points. "The record could just as easily been 9-4", stated Coach Klarer.

A weak defense lead to the eighth grades' losing record of 1-12. However, according to Coach Whiting the team

improved throughout the season. In fact, in their last game, they scored 50 points, which is approximately 20 more than last year's average. The team also maintained a 65% free throw average. Rick Sizemore and Larry Mills were outstanding as guard and center.

As we started, we looked upon an empty theatre which began to unfold into the events of one year. Now, we once again look upon an empty theatre in which we reflect on that past year, the triumphs and tragedies, the highs and lows. But as we reflect, we also look ahead. Each year always brings challenges and surprises to us. Many take advantage of these challenges, many do not. Education is one step in helping each and every one of us take the fullest advantage we can of life, to make things work in our favor instead of against us.

As the curtain falls, it does so on a way of life for many of the students. The seniors

THE

are now graduated and ready to become capable adults who help mold the character of our world. Eighth graders mature as they enter the prospects of their freshmen year, ready yet wary of their last four years of schooling.

But in life, the curtain also rises. As we grow and mature, the dramatic pretenses of life ahead give us dreams for the future, which will, hopefully, become the pleasant memories of the past. The intent of the 1980 INGOT is to help us relive some of our hopes for the future, give us a constant memory of our past year, and possibly set some new dreams and goals for everyone in the future.

END

For three years I've seen the River Forest yearbook evolve into a symbol of pride for the students of this school. Trying to depict all the events of a school year and all the people involved with each event is not an easy job. The fairness, rationality, and creativeness that goes into a yearbook cannot be acquired through only one person. It takes a team of highly dedicated students, who want to create something that everyone can be proud of. We've been lucky enough to have students who know this school inside and out, have the capability to put together a yearbook that fairly represents us and all that we've done throughout the year.

I'd like to extend my appreciation to the faculty, students, and administration of River Forest; Root photographers; Robert Henning and Josten's American Yearbook; and above all to Da-vee Muir, all of whom have given their undying support to the yearbook and the staff. To Jeanette, Carolyn, Linda, Kathy, Terri, John, Bob, Mara Ibeth, Mike, and Glenda (Shark), I give you my deepest thanks and a hearty congratulations for a job well done.

Thanks again,

Peggy Glennie,
Editor, INGOT

It is impossible to show my appreciation to all who were involved with the production of this annual. However, I would like to acknowledge the students whose hard work and determination created it. My special thanks are extended to John, Mara Ibeth, Robert, and Glenda for putting up with my constant demands for revision; to Carolyn for her exactness with tedious layouts; to Kathy for her skillful and precise artwork; to Linda and Terri for their ability to lighten the numerous monotonous tasks with their humor; to Mike for his tireless chasing and attempts to achieve the "right" picture; and finally to Peggy and Jeanette whose loyalty, devotion, and diligence have made the 1980 INGOT an annual that I hope everyone can be proud of.

Thanks Staff,

Mr. Muir

and the corresponding μ -measurable sets. We also have the following result.

Theorem 1. *Let μ be a σ -finite measure on (X, \mathcal{A}) . Then there exists a sequence $\{\mu_n\}_{n=1}^{\infty}$ of σ -finite measures on (X, \mathcal{A}) such that $\mu_n \ll \mu$ for all $n \in \mathbb{N}$, μ_n is μ -continuous, and $\mu_n \rightarrow \mu$ in the weak* topology on $\mathcal{M}_1(X)$.*

Proof. Let $\{E_i\}_{i=1}^{\infty}$ be a sequence of disjoint measurable sets such that $\bigcup_{i=1}^{\infty} E_i = X$. Let $\mu_n = \mu(E_i) \delta_{x_i}$ where $x_i \in E_i$ and δ_x denotes the point mass at x . Then $\mu_n \ll \mu$ for all $n \in \mathbb{N}$ and $\mu_n \rightarrow \mu$ in the weak* topology on $\mathcal{M}_1(X)$. To see this, let $\varphi \in \mathcal{M}_1(X)$ and let $\varepsilon > 0$. Then there exists $N \in \mathbb{N}$ such that $\|\varphi - \varphi_N\|_{\text{weak}*} < \varepsilon$ where $\varphi_N(x) = \sum_{i=1}^N \varphi(x_i) \delta_{x_i}$. Now $\|\varphi_N - \mu_n\|_{\text{weak}*} = \|\varphi_N - \mu\|_{\text{weak}*} + \|\mu - \mu_n\|_{\text{weak}*} \leq \varepsilon + \|\mu - \mu_n\|_{\text{weak}*}$. Hence $\|\varphi - \mu_n\|_{\text{weak}*} \leq 2\varepsilon$ for all $n \geq N$.

It remains to show that μ_n is μ -continuous. Let $\varphi \in \mathcal{M}_1(X)$ and let $\varepsilon > 0$. Then there exists $N \in \mathbb{N}$ such that $\|\varphi - \varphi_N\|_{\text{weak}*} < \varepsilon$. Now $\|\varphi - \mu_n\|_{\text{weak}*} = \|\varphi - \varphi_N\|_{\text{weak}*} + \|\varphi_N - \mu_n\|_{\text{weak}*} \leq \varepsilon + \|\varphi_N - \mu_n\|_{\text{weak}*}$. Hence $\|\varphi - \mu_n\|_{\text{weak}*} \leq 2\varepsilon$ for all $n \geq N$.

It follows that μ_n is μ -continuous. To see this, let $\varphi \in \mathcal{M}_1(X)$ and let $\varepsilon > 0$. Then there exists $N \in \mathbb{N}$ such that $\|\varphi - \varphi_N\|_{\text{weak}*} < \varepsilon$. Now $\|\varphi - \mu_n\|_{\text{weak}*} = \|\varphi - \varphi_N\|_{\text{weak}*} + \|\varphi_N - \mu_n\|_{\text{weak}*} \leq \varepsilon + \|\varphi_N - \mu_n\|_{\text{weak}*}$. Hence $\|\varphi - \mu_n\|_{\text{weak}*} \leq 2\varepsilon$ for all $n \geq N$.

the first time in the history of the world, the people of the United States have been called upon to decide whether they will submit to the law of force, or the law of the Constitution.

The law of force has been presented to us in the person of a Southern Slave Power, whose agents have organized a Southern Confederacy, and who have now sent their commissioners to demand of us, in effect, that we shall give up our slaves, and let them go where they please.

The law of the Constitution has been presented to us in the person of Abraham Lincoln, who, as the representative of the people of the United States, has called upon us to sustain him in his efforts to sustain the Union.
